STRATEGY & PROCESS DESCRIPTION

Focusing on companies with market capitalizations between \$250 million and \$7.0 billion, our International Small Cap Fund attempts to enhance performance by exploiting this less efficiently priced, under-followed segment of the global equity market. Once a security reaches \$10 billion, it will be sold from the Fund.

Our research-driven approach to value investing and portfolio construction defines our Traditional Equity platform. We first apply systematic quantitative analysis to evaluate companies and industries with favorable value and return characteristics. Approximately 35% of the stocks in the product universe make it through our proprietary screening model and qualify for further research. Our experienced equity research teams then perform comprehensive company and industry analysis. Our multi-step recommendation process encourages constructive debate among members of the investment team. We rely on strong buy/sell disciplines to ensure adherence to our value and quality philosophy.

The composite consists of a single 3(c)(1) Limited Partnership managed by the Firm and invested in the International Small Cap Fund strategy. The International Small Cap Fund strategy is actively managed and invests in companies traded on global exchanges with a market cap of \$250MM to \$7.0B.
