STRATEGY & PROCESS DESCRIPTION

We combine our Mid- and Large-Cap portfolios to consider companies with market capitalizations above \$1 billion. We adhere to each portfolio's specific fundamental and quantitative parameters.

Our research-driven approach to value investing and portfolio construction defines our Traditional Equity platform. We first apply systematic quantitative analysis to evaluate companies and industries with favorable value and return characteristics. Approximately 35% of the stocks in the product universe make it through our two proprietary screening models and qualify for further research. Our experienced equity research teams then perform comprehensive company and industry analysis. Our multi-step recommendation process encourages constructive debate among members of the investment team. We rely on strong buy/sell disciplines to ensure adherence to our value and quality philosophy.

Large Cap Value - Expanded: The Large Cap Value - Expanded composite was created on 05/01/2002. The composite consists of discretionary accounts of WEDGE Capital Management L.L.P. with a minimum of \$1MM invested in the Large Cap Value - Expanded strategy. Prior to 2012, any discretionary taxable accounts were included in a separate composite. The Large Cap Value - Expanded strategy is actively managed and invests in companies traded on U.S. exchanges with a market cap of \$1B or greater. Net returns are calculated by subtracting the highest applicable management fee (0.75% on an annual basis, or 0.06% monthly) on a monthly basis from the gross composite monthly return. The management fee schedule is as follows: 0.75% of the first \$10MM under management, 0.65% on the next \$15MM, and 0.50% on all assets over \$25MM. See Part 2A of Form ADV for details of management fees. The appropriate index is the Russell 1000 Value Index which measures the performance of the large cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower forecasted growth values. The index includes the reinvestment of dividends. Investors cannot invest directly in an index.
