STRATEGY & PROCESS DESCRIPTION

This strategy focuses on the 501st through 2500th largest companies that are available for purchase on U.S. stock exchanges. Utilizing 10 separate WEDGE-defined sectors, this portfolio applies a model-driven systematic approach to small and mid cap value investing. The strategy is structured to be sector neutral to a 50/50 blend of the weighting of the 10 sectors as measured within the 501st through 2500th largest company universe, and the primary benchmark, excluding REITS

Utilizing fundamental characteristics, our Quantitative Equity platform employs robust models that systematically combine value, contrarian, and momentum factors to identify undervalued stocks. Our research has proven that the factor categories that determine stock price performance often vary across economic sectors and capitalization ranges. Due to the number and unique combinations of factors utilized, our sector-specific models allow us to efficiently and unemotionally analyze the designated universe of stocks, providing objectively determined buy and sell decisions.

*Dispersion is not presented when five or fewer portfolios are included in the composite for the full year.

WEDGE Capital Management L.L.P. claims compliance with the Global Investment Performance Standards (GIPS[®]) and has prepared and presented this report in compliance with the GIPS Standards. WEDGE Capital Management L.L.P. has been independently verified for the period January 1, 2013 through December 31, 2016. The verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. WEDGE Capital Management L.L.P. is an SEC registered independent investment adviser owned by eight general partners. The firm was founded in 1984 and provides a range of equity, fixed income, and balanced investment products to institutional and other investors. The firm's policies for valuing portfolios, calculating performance, and preparing compliant presentations, as well as a list of all composite descriptions, are available by contacting the Performance Group, WEDGE Capital Management, 301 S. College Street, Suite 3800, Charlotte, NC 28202 or performance@wedgcapital.com.

Performance data is historical and is no indication of future results. Valuations and returns are in U.S. dollars. Beginning April 2004 performance includes accruals. Internal dispersion is calculated using equal-weighted standard deviation of all portfolios that were included in the composite for the entire year. Investment returns reflect the reinvestment of dividends and/or interest. Gross performance results are presented before management fees but after all trading expenses.

QVM Small Mid Cap Value: The QVM Small Mid Cap Value composite was created on 01/01/09. The composite consists of discretionary accounts of WEDGE Capital Management L.L.P. with a minimum of \$1MM invested in the QVM Small Mid Cap Value strategy. The QVM Small Mid Cap Value strategy is actively managed and applies a quantitative approach to a selection of Small Cap Value and Mid Cap Value securities traded on U.S. exchanges. Net returns are calculated by subtracting the highest applicable management fee (0.80% on an annual basis, or 0.07% monthly) on a monthly basis from the gross composite monthly return. The management fee schedule is as follows: 0.80% of the first \$10MM under management, 0.75% on the next \$15MM, and 0.70% on all assets over \$25MM. See Part 2A of Form ADV for details of management fees. The appropriate index is the Russell 2500 Value Index which measures the performance of the small to mid cap value segment of the U.S. equity universe. It includes those Russell 2500 Index companies with lower price-to-book ratios and lower forecasted growth values. The index includes the reinvestment of dividends. Investors cannot invest directly in an index.
